# TOPICAL INDEX

## COLLEGIATE MICROCOMPUTER 1985

Biology, health science
CAL in Microbiology: A Note of Caution 145
Acid Rain: Manipulating the Variables 231

Business, economics
Bank President - A Potential Winner: Software Review 151
Discounts with Discounting 235

Computer assisted instruction
The Roll of CALL as a Computer Language 39

Computer literacy
The Relationship Between Reading Comprehension and Computer Literacy 201

Computer science
Basic Microcomputer Notes: Comprehensive Notetaking for Computer Science Students 13

Databases
Omni OnLine Database Directory 29
dBcitations Vers 1.5 31
Electronic Gradebook: Application of dBase II Program for Academia 59

Education
Computer Consulting in Schools 19
DELPHI: Computer Program Featuring Dialogue Among Students and Between Students and the Instructor 157
Using Microcomputer to Score and Evaluate Items 163
Structuring Undergraduate Computer Literacy Curriculum for 4th Year Teacher Education Majors 179
Educational Software Acquisition for Microcomputer 193

English, composition, word-processing
Word Processing on a Local Area Network 205
Interdisciplinary Program Linking Computers and Writing Instruction 213
Using Computers in Writing: Educational Issues 219
RECOMP: Gathering Data on the Composition Process 263
The Thin Green Line 281
Academic Use of the Z-100 by Freshman and Professors at Clarkson University 286
Using the Bank Street Writer as an Aid for Freshman English Writing 291
Adapting Microcomputers for Use in College Composition Courses 295
Teaching with the Text Checkers 299
Is Word-Processing Words-Worth It? 307
Writer's Slump and Revision Schemes: Effects of Computers on the Composing Process 313
Beyond "Drill and Practice" Programs 317
Interactive Literacy: Connection Between Reading and Writing and the Computer 333
Proofreading with the Ears: A Case Study of Text-to-Voice Performance of a Student's Writing 339
Evaluating Student Papers with a Word Processor 345
Computers and Composition: A Marriage Made in Heaven? 351
Issues and Problems with Research Involving Word Processing: A Teacher's Experience 357

Engineering
Microcomputer Use in Industrial Engineering Classroom 137

Equipment
An Apple Cart for the Classroom 51
Matrix Printer Software 275

Faculty development
Introducing the Faculty Across the Curriculum to the Microcomputer 225

An Apple Cart for the Classroom 51
Matrix Printer Software 275

Faculty development
Introducing the Faculty Across the Curriculum to the Microcomputer 225

General, utilities, applications
Microcomputers Aid Movement Analysis 1
Producing an Index with your Microcomputer Database Manager 375

Languages
Practical Way to Coordinate the Microcomputer with Programmable Listening Drills 249

Mathematics
Microcomputer Solutions of Differential and Algebraic Equations 81
The Use of Microcomputers in the Teaching of Calculus 111

Microcomputer, computer milieu
Here and About There: A Column 22
Telecomputing Services, Teaching and Research 23
Confessions of a Traitor 35
Impact of Computerized Technology on the Applied Sciences 85
Here and About There: A Column 144
Computer Literacy for Undergraduate Humanities and Social Majors 169
Here and About There: A Column 229
Artificial Behavior: An Idea 255
Microcomputer Politics or How to Talk Back to the Director of the Computer Center 365
Technological Innovation in Higher Education: Microcomputing 369

Physics
Review of Computer-Based Instruction for University Physics 149

Simulation, systems analysis
Computer-Generated Density Functions for Sums of Independent Random Variables 97
An Introductory Course in Systems Dynamics 127

Spreadsheets
Use of Spread Sheets in the Business/Finance Classroom 69
VisiCalc in Linear Algebra 75
dy/dx in Cell A1: Book Review 79
CAI Framework of Multiple Regression Analysis on Spreadsheets 239

Statistics
Advances for Statistical Software for Micros 55
